

WEBSITE REQUIREMENTS DOCUMENT

Specialist Clinic – Dr. Saleha Ibtisam

Consultant Gynecologist & Obstetrician | Rawalpindi, Pakistan

Purpose — A complete developer handoff defining the information architecture, content, UI expectations, dynamic features, forms, CMS requirements, technical standards, SEO, security, and acceptance criteria for the clinic website.

Client / Brand	Specialist Clinic – Dr. Saleha Ibtisam
Primary Location	Shop No. 5, Fazal Palaza, Kotha Kalan Rd, Kotha Kalan Morgah, Rawalpindi (Near Citilab Morgah)
Clinic Hours	6:00 PM – 9:00 PM
Appointment Phone	051-5431070
WhatsApp	0331-0000643
Additional Number	0334-8676501
Document Status	Developer-ready functional & content specification

1. Project Overview

Build a modern, trustworthy, mobile-first website for Specialist Clinic that clearly presents Dr. Saleha Ibtisam's profile, women's health and maternity services, clinic location and timings, and easy appointment/contact options. The visual direction should be inspired by the supplied logo and promotional artwork: navy/royal blue as the trust color, bright pink as the primary action/accent color, fresh green as a supporting health/wellness accent, and generous white space for a clean clinical appearance.

1.1 Business Goals

- Make it easy for patients to understand the clinic's services and doctor credentials.
- Increase appointment inquiries via phone, WhatsApp, and website booking form.
- Provide a professional online presence that works especially well on mobile devices.
- Allow clinic staff to update services, gallery images, and submitted inquiries without changing source code.
- Improve discoverability for searches related to gynecology, obstetrics, pregnancy care, infertility, family planning, menopause, normal delivery and C-section care in Rawalpindi/Morgah.

1.2 Primary Audience

- Women seeking pregnancy and antenatal care.
- Patients requiring general gynecological consultation.
- Couples seeking infertility guidance/treatment.
- Women seeking family planning, menstrual health or menopause care.
- Patients looking for normal delivery, C-section support, or gynecological surgery consultation.
- Family members helping a patient find a trusted local specialist.

1.3 Scope / Pages

Home	Primary marketing page with doctor profile, services overview, trust points, contact/appointment CTAs, timing and location.
About	Detailed doctor and clinic profile, qualifications, role, approach, hospital experience, mission and trust messaging.
Services	Dynamic service listing managed from admin/CMS, with detail sections/pages.
Gallery	Dynamic photo gallery managed from admin/CMS.
Contact	Clinic contact details, map/location section and dynamic contact form.
Book Appointment	Dynamic appointment request form, confirmation flow, click-to-call and WhatsApp options.

Important — The website should not make guarantees of medical outcomes. Content should be informational and appointment-focused; final clinical claims, qualifications and hospital affiliations should be confirmed by the clinic before launch.

2. Approved Brand & Clinic Information

Brand Name	Specialist Clinic
Doctor	Dr. Saleha Ibtisam
Designation	Consultant Gynecologist & Obstetrician
Qualifications	BSc, MBBS, FCPS (promotional artwork). At minimum, MBBS, FCPS are confirmed in the written brief.
Hospital / Role	Senior Registrar, DHQ / Rawalpindi Teaching Hospital (as shown in supplied promotional artwork; verify exact official wording before publication).
Specialty	Obstetrics & Gynecology / Women's Health
Address	Shop No. 5, Fazal Palaza, Kotha Kalan Rd, Kotha Kalan Morgah, Rawalpindi, Near Citilab Morgah
Clinic Timing	6:00 PM – 9:00 PM
Landline	051-5431070
WhatsApp	0331-0000643
Additional Contact	0334-8676501
Tagline	Safe Care • Expert Guidance • Better Tomorrow

2.1 Brand Assets Supplied

The developer should use the supplied circular clinic logo as the primary logo. The supplied promotional image is a visual/content reference and may be shown in the Gallery or used as a source for approved copy. It should not be treated as the only layout template for the website.

Primary Logo

Promotional / Content Reference

2.2 Visual Direction

- Primary color: deep/navy blue for header, headings, trust elements and footer.
- Primary CTA/accent: vivid pink for “Book Appointment”, phone/WhatsApp emphasis, badges and key highlights.
- Supporting accent: green for care/wellness details and small illustrative elements.
- Backgrounds: white and very light blue/gray sections; avoid cluttered medical-stock-image layouts.
- Typography: modern sans-serif, high readability, strong hierarchy; avoid using the logo’s decorative serif typeface for long website text.
- Imagery: authentic clinic/doctor imagery preferred. Avoid graphic or distressing medical images. Use respectful women’s health/pregnancy visuals.

3. Global Site Structure & Navigation

ID	Requirement	Priority	Acceptance / Notes
NAV-01	Desktop header with logo, Home, About, Services, Gallery, Contact, Book Appointment.	Must	Book Appointment should be visually prominent.
NAV-02	Mobile header with compact logo, hamburger menu and easy appointment/WhatsApp access.	Must	No menu clipping at common phone widths.
NAV-03	Sticky header or sticky mobile CTA behavior.	Should	Do not cover content; CTA should remain unobtrusive.
NAV-04	Footer on all pages with logo/brand, quick links, services summary, address, hours, phone and WhatsApp.	Must	All contact items clickable where applicable.
NAV-05	Breadcrumbs on inner/detail pages where appropriate.	Should	Useful for service detail pages and SEO.

3.1 Global Contact Actions

- Phone CTA: clicking 051-5431070 on a mobile device should initiate a call.
- WhatsApp CTA: clicking 0331-0000643 should open a WhatsApp chat with a prefilled appointment-oriented message.
- Additional phone 0334-8676501 may be displayed as an alternate contact and made click-to-call.
- Appointment CTA should route to the Book Appointment page/form.
- Address/location CTA should open the clinic location in maps once the exact pin is confirmed.

4. Home Page — Complete Content & Section Requirements

4.1 Hero Section

Eyebrow	SPECIALIST CLINIC • WOMEN'S HEALTH & MATERNITY CARE
----------------	---

Main Heading	Expert Gynecology & Obstetric Care in Morgah, Rawalpindi
Supporting Copy	Dr. Saleha Ibtisam provides professional care for pregnancy, women’s health, infertility, family planning, menopause, normal & C-section deliveries, and gynecological conditions.
Primary CTA	Book Appointment
Secondary CTA	WhatsApp: 0331-0000643
Utility Info	Clinic Time: 6:00 PM – 9:00 PM • Near Citilab, Kotha Kala Road, Morgah, Rawalpindi
Visual	Doctor/clinic image if available; otherwise use tasteful women’s health/maternity imagery consistent with the supplied artwork.

Hero UX — On mobile, the heading and CTAs must remain visible without oversized imagery. A floating WhatsApp/contact action is acceptable.

4.2 Doctor Introduction

Suggested heading: “Meet Dr. Saleha Ibtisam”.

Suggested copy: “Consultant Gynecologist & Obstetrician with MBBS and FCPS qualifications, providing focused care across pregnancy, gynecology, fertility, family planning and menopause. The clinic is located on Kotha Kala Road, Morgah, Rawalpindi, near Citilab.”

- Display qualification badges: MBBS, FCPS; include BSc only after final verification.
- If hospital role is published, use the verified official wording for Senior Registrar / Rawalpindi Teaching Hospital or DHQ Hospital.
- CTA: “Learn More About Doctor” → About page.

4.3 Services Overview

Suggested heading: “Women’s Health Services”. Show 6–8 cards pulled from the dynamic Services content type. Initial services:

- Antenatal & Pregnancy Care: Routine pregnancy consultation, monitoring and guidance through pregnancy.
- Menstrual & Women’s Health Problems: Consultation for menstrual concerns and common gynecological health issues.
- Infertility Evaluation & Treatment: Assessment and treatment guidance for couples facing difficulty conceiving.
- Family Planning: Counseling on family planning and suitable contraceptive options.

- Normal & C-Section Deliveries: Maternity care and delivery planning, including normal delivery and C-section when clinically required.
- Menopause Care & Guidance: Consultation and support for symptoms and health concerns related to menopause.
- Gynecological Surgeries: Consultation and surgical management for appropriate gynecological conditions.
- General Obstetrics & Gynecology: Comprehensive consultation for pregnancy and women's reproductive health concerns.
- CTA: "View All Services" → Services page.

4.4 Why Choose the Clinic

- Specialist care focused on women's health and pregnancy.
- Clear guidance and respectful consultation.
- Convenient evening clinic timing: 6:00 PM – 9:00 PM.
- Accessible Morgah location near Citilab.
- Direct phone and WhatsApp appointment options.

4.5 Appointment Banner / Conversion Section

Heading	Need an Appointment?
Copy	Contact Specialist Clinic to request a consultation with Dr. Saleha Ibtisam.
CTA 1	Book Appointment
CTA 2	Call 051-5431070
CTA 3	WhatsApp 0331-0000643

4.6 Clinic Information Strip

- Address: Shop No. 5, Fazal Palaza, Kotha Kalan Rd, Kotha Kalan Morgah, Rawalpindi, Near Citilab Morgah.
- Clinic Time: 6:00 PM – 9:00 PM.
- Phone: 051-5431070.
- WhatsApp: 0331-0000643.
- Alternate Contact: 0334-8676501.

4.7 Gallery Preview

Show 4–6 recent gallery items from the dynamic Gallery module. Clicking an item may open a lightbox. Include “View Gallery” CTA.

4.8 Contact / Location Preview

Include a short address block, clinic hours, phone/WhatsApp buttons and embedded map or map-link area. The exact map pin must be confirmed by the clinic before launch.

5. About Page — Content & Requirements

Page Title	About Dr. Saleha Ibtisam
Intro	Consultant Gynecologist & Obstetrician providing care for pregnancy, gynecology, infertility, family planning, menopause, deliveries and gynecological conditions.
Qualifications	MBBS, FCPS. Add BSc if clinic confirms it should be publicly listed.
Role / Experience	Senior Registrar role shown in reference artwork. Exact hospital/department wording must be verified before publishing.

Practice Location	Specialist Clinic, Kotha Kala Road / Kotha Kalan Morgah, Rawalpindi, near Citilab.
Care Philosophy	Safe Care • Expert Guidance • Better Tomorrow

- Include professional doctor portrait if supplied.
- Use a clean credentials timeline/card layout rather than large blocks of text.
- Include CTA to Book Appointment and WhatsApp.
- Do not include unverified years of experience, success rates, awards, or procedure claims.

6. Services Page — Dynamic CMS Requirements

The Services page must be dynamic. Clinic staff/admin should be able to create, edit, publish/unpublish, reorder and delete service entries from an admin/CMS interface without developer involvement.

ID	Requirement	Priority	Acceptance / Notes
SRV-01	Services listing page with reusable service cards.	Must	Card shows title, short summary, icon/image and details link.
SRV-02	Individual service detail page or expandable detail panel.	Must	Supports longer description and CTA.
SRV-03	Admin fields: title, slug, short description, full description, icon/image, display order, SEO title, meta description, status.	Must	All editable from CMS.
SRV-04	Featured toggle for selecting services shown on Home page.	Should	Home should auto-update from CMS.
SRV-05	Optional related-services links.	Could	Improve navigation if supported.

6.1 Initial Service Content

- Antenatal & Pregnancy Care — Routine pregnancy consultation, monitoring and guidance through pregnancy.
- Menstrual & Women's Health Problems — Consultation for menstrual concerns and common gynecological health issues.
- Infertility Evaluation & Treatment — Assessment and treatment guidance for couples facing difficulty conceiving.
- Family Planning — Counseling on family planning and suitable contraceptive options.

- Normal & C-Section Deliveries — Maternity care and delivery planning, including normal delivery and C-section when clinically required.
- Menopause Care & Guidance — Consultation and support for symptoms and health concerns related to menopause.
- Gynecological Surgeries — Consultation and surgical management for appropriate gynecological conditions.
- General Obstetrics & Gynecology — Comprehensive consultation for pregnancy and women's reproductive health concerns.

Medical content note — Service descriptions should remain general and should not promise cure, guaranteed pregnancy, guaranteed normal delivery, or guaranteed surgical outcomes.

7. Gallery Page — Dynamic CMS Requirements

ID	Requirement	Priority	Acceptance / Notes
GAL-01	Responsive image gallery with grid/masonry layout.	Must	Works well on phones and desktops.
GAL-02	Lightbox viewer for full-size image.	Should	Keyboard/touch accessible.
GAL-03	Admin upload/edit/delete/reorder images.	Must	No code changes needed.
GAL-04	Fields: image, title, caption, alt text, category, display order, publish status.	Must	Alt text required for accessibility.
GAL-05	Image optimization on upload.	Must	Generate web-friendly sizes; avoid loading original huge files.
GAL-06	Optional category filters (Clinic, Awareness, Events, Promotional).	Could	Only if enough content exists.

8. Contact Page — Dynamic Form & Content

8.1 Contact Information

Heading	Contact Specialist Clinic
Address	Shop No. 5, Fazal Palaza, Kotha Kalan Rd, Kotha Kalan Morgah, Rawalpindi, Near Citilab Morgah
Clinic Time	6:00 PM – 9:00 PM
Phone	051-5431070
WhatsApp	0331-0000643
Alternate Phone	0334-8676501

8.2 Contact Form Fields

ID	Requirement	Priority	Acceptance / Notes
CF-01	Full Name	Must	Required; 2–80 characters.
CF-02	Phone / WhatsApp Number	Must	Required; allow Pakistan mobile/landline formats.
CF-03	Email Address	Could	Optional; validate format if entered.
CF-04	Subject / Reason for Contact	Should	Dropdown or text; e.g., Appointment, Service Question, General Inquiry.
CF-05	Message	Must	Required; reasonable max length such as 1000–2000 chars.
CF-06	Consent Checkbox	Must	“I agree to be contacted regarding this inquiry.”

8.3 Contact Form Workflow

- Client-side and server-side validation.

- Spam protection (honeypot and/or CAPTCHA where appropriate).
- On successful submission: store inquiry in admin database and send notification to configured clinic email/recipient.
- Show clear success message without exposing technical details.
- Admin should be able to view inquiry date/time, name, phone, subject/message, status and internal notes.
- Statuses: New, Contacted, Closed.
- Form must not ask users to submit highly sensitive medical reports unless a compliant secure process is intentionally built later.

9. Book Appointment Page — Dynamic Form

Page Title	Book an Appointment
Intro Copy	Request an appointment with Dr. Saleha Ibtisam at Specialist Clinic, Morgah, Rawalpindi. Clinic time is 6:00 PM – 9:00 PM. The clinic team will contact you to confirm availability.
Important UX Note	Submitting the form is an appointment request, not an automatic confirmed booking, unless the developer implements a real calendar/slot system.

9.1 Appointment Request Fields

ID	Requirement	Priority	Acceptance / Notes
AP-01	Patient Full Name	Must	Required.
AP-02	Phone / WhatsApp Number	Must	Required; preferred confirmation channel.
AP-03	Email	Could	Optional.
AP-04	Preferred Date	Must	Required; block past dates.
AP-05	Preferred Time	Should	Dropdown within clinic hours or “Any time between 6–9 PM”.
AP-06	Service / Reason for Visit	Should	Dropdown populated from active Services + “Other”.

AP-07	New or Returning Patient	Could	Simple selector.
AP-08	Short Note	Could	Optional brief note; avoid requesting unnecessary sensitive details.
AP-09	Consent	Must	Consent to be contacted for appointment coordination.

9.2 Appointment Workflow

- Submission creates a record in admin/CMS with status “New”.
- Send staff notification to configured email and/or admin notification channel.
- Optional: send patient acknowledgment by email if email was entered.
- Show confirmation message: “Your appointment request has been received. The clinic team will contact you to confirm the date and time.”
- Admin statuses: New, Contacted, Confirmed, Completed, Cancelled.
- Allow staff to add internal notes and, if needed, record confirmed date/time.
- Do not display appointment requests publicly.

10. Admin / CMS Requirements

ID	Requirement	Priority	Acceptance / Notes
CMS-01	Secure staff/admin login.	Must	Passwords hashed; rate-limit repeated login attempts.
CMS-02	Dashboard summary: new contact inquiries, appointment requests, published services and gallery items.	Should	Simple and non-technical.
CMS-03	Manage Services: create/edit/delete/reorder/publish.	Must	Dynamic page content.
CMS-04	Manage Gallery: upload/edit/delete/reorder/publish.	Must	Image validation and optimization.

CMS-05	View and update Contact inquiries.	Must	Status + internal notes.
CMS-06	View and update Appointment requests.	Must	Status + confirmed date/time + internal notes.
CMS-07	Site Settings area for phone numbers, WhatsApp, address, clinic hours, social links, notification email, map link.	Should	Avoid hardcoding frequently changed details.
CMS-08	Basic role separation (Admin/Editor) if framework makes it practical.	Could	Admin full access; Editor content/forms only.

10.1 Suggested Data Models

Service	id, title, slug, short_description, full_description, icon/image, featured, display_order, seo_title, meta_description, status, created_at, updated_at
GalleryItem	id, image, title, caption, alt_text, category, display_order, status, created_at
ContactInquiry	id, full_name, phone, email, subject, message, consent, status, internal_notes, submitted_at
AppointmentRequest	id, patient_name, phone, email, preferred_date, preferred_time, service_id/reason, patient_type, note, consent, status, confirmed_datetime, internal_notes, submitted_at
SiteSettings	clinic_name, doctor_name, address, hours, phone, whatsapp, alternate_phone, notification_email, map_url, social_links

11. Functional Requirements

ID	Requirement	Priority	Acceptance / Notes
FUN-01	Responsive design for mobile, tablet and desktop.	Must	No horizontal scrolling; touch-friendly controls.
FUN-02	All forms validate and display clear field errors.	Must	Validation on server as well as browser.
FUN-03	Click-to-call, WhatsApp and appointment CTAs.	Must	Functional on mobile; graceful on desktop.
FUN-04	Map/link integration for clinic location.	Must	Use verified map location before launch.
FUN-05	Image lazy loading and optimization.	Must	Especially Gallery and Home imagery.
FUN-06	SEO-friendly URLs and page metadata.	Must	Readable slugs; canonical tags where relevant.
FUN-07	Social sharing preview metadata (Open Graph).	Should	Use clinic logo and suitable title/description.
FUN-08	404 page with navigation back to Home/Contact.	Should	Branded and useful.
FUN-09	Analytics integration placeholder.	Should	GA4 or equivalent once client provides ID.
FUN-10	Basic event tracking for phone, WhatsApp and appointment CTA clicks.	Should	Useful for marketing measurement.

12. SEO Requirements

- Unique title tag and meta description for every core page.
- Use one clear H1 per page and logical H2/H3 hierarchy.
- Local keywords should be natural: gynecologist in Rawalpindi, obstetrician in Rawalpindi, women's health clinic Morgah, pregnancy care Rawalpindi, etc. Avoid keyword stuffing.
- Create XML sitemap and robots.txt.

- Add LocalBusiness/MedicalClinic and Physician structured data where accurate and supported; include address, contact, hours and doctor details only if verified.
- Use descriptive alt text for all meaningful images and logo.
- Use clean service URLs such as /services/antenatal-pregnancy-care.
- Ensure page speed and mobile usability meet reasonable Core Web Vitals targets.

12.1 Suggested Metadata

Home Title	Specialist Clinic Dr. Saleha Ibtisam – Gynecologist in Rawalpindi
Home Description	Consultant gynecology and obstetric care for pregnancy, women’s health, infertility, family planning, menopause and deliveries in Morgah, Rawalpindi.
About Title	About Dr. Saleha Ibtisam Specialist Clinic Rawalpindi
Services Title	Gynecology & Obstetric Services Specialist Clinic Rawalpindi
Contact Title	Contact Specialist Clinic Morgah, Rawalpindi
Appointment Title	Book Appointment Dr. Saleha Ibtisam – Specialist Clinic

13. Accessibility & Usability

- Meet WCAG 2.1 AA principles where practical: sufficient contrast, keyboard navigation, visible focus states, labels for form controls, alt text and semantic headings.
- Do not rely on color alone to communicate errors or status.
- Minimum tap target around 44×44 px for primary mobile actions.
- Forms must include explicit labels; placeholders are not substitutes for labels.
- Use readable font sizes (body generally 16px equivalent on web) and adequate line spacing.
- Respect reduced-motion preferences if animations are used.

14. Security, Privacy & Form Safety

- HTTPS required in production.
- Server-side input validation and output escaping to prevent common injection/XSS issues.
- CSRF protection for forms where the framework requires it.
- Rate limiting / anti-spam controls on public forms.
- Admin authentication and secure password storage.
- Do not expose admin URLs, API secrets, SMTP credentials or environment variables in frontend code/repository.

- Collect only information needed for inquiry/appointment coordination.
- Add a concise privacy notice explaining how contact/appointment data is used and retained.
- Back up application/database as appropriate for the chosen hosting stack.

15. Performance & Technical Quality

- Mobile-first and optimized for typical 4G connections.
- Compress images; serve modern formats such as WebP/AVIF where supported.
- Lazy-load below-the-fold images.
- Minimize blocking JavaScript and unused CSS.
- Use caching/CDN features available on the hosting platform.
- Avoid autoplay videos or oversized sliders on Home.
- Target fast first render and stable layout (no major content shift as images load).

16. Responsive Behavior

Mobile	Single-column sections; sticky/floating contact action allowed; large tap targets; appointment form easy to complete one-handed.
Tablet	2-column service cards where space allows; preserve hierarchy and readable line lengths.
Desktop	Balanced multi-column sections; full navigation; hero may use text + doctor/clinic visual side-by-side.
Gallery	1–2 columns mobile, 2–3 tablet, 3–4 desktop depending on image ratio.

17. Content Tone & Editorial Rules

- Tone: professional, calm, respectful, reassuring and straightforward.
- Use “women’s health” language that is patient-friendly and non-judgmental.
- Avoid excessive capitalization except short labels/CTAs.
- Correct promotional spelling in web copy: “Gynecologist”, “Obstetrician”, “Senior Registrar”, “Menopause”, “Gynecological”.
- Do not publish hospital affiliation or additional credential text until exact official wording is confirmed.
- Avoid claims such as “best”, “100% success”, “guaranteed normal delivery”, or any unverified outcome statistic.

18. Detailed Footer Content

Brand Block	Specialist Clinic – Dr. Saleha Ibtisam Safe Care • Expert Guidance • Better Tomorrow
--------------------	---

Quick Links	Home About Services Gallery Contact Book Appointment
Contact	051-5431070 WhatsApp 0331-0000643 Alternate 0334-8676501
Address	Shop No. 5, Fazal Palaza, Kotha Kalan Rd, Kotha Kalan Morgah, Rawalpindi, Near Citilab Morgah
Hours	6:00 PM – 9:00 PM
Legal	Privacy Policy; optional Terms/Disclaimer if required by client or local legal advice.

19. Form Messages / Microcopy

Contact Success	Thank you. Your message has been received. The clinic team will contact you if a response is required.
Appointment Success	Your appointment request has been received. The clinic team will contact you to confirm the date and time.
Required Field	This field is required.

20. Recommended Homepage Order

1. Header / navigation
2. Hero
3. Doctor introduction
4. Services overview
5. Why choose Specialist Clinic
6. Appointment CTA banner
7. Gallery preview
8. Clinic information + map/location
9. Footer

21. Acceptance Criteria / Definition of Done

ID	Requirement	Priority	Acceptance / Notes
AC-01	All 6 required pages are implemented and linked from navigation.	Must	Pass before launch
AC-02	Logo displays crisply and brand colors are consistently applied.	Must	Pass before launch
AC-03	Home includes doctor summary, service cards, clinic hours, address and working appointment/contact CTAs.	Must	Pass before launch
AC-04	Services are managed dynamically through CMS/admin and updates appear on the public site.	Must	Pass before launch
AC-05	Gallery is managed dynamically and images display responsively.	Must	Pass before launch
AC-06	Contact form validates, stores submissions and triggers configured staff notification.	Must	Pass before launch
AC-07	Appointment form validates, stores requests and clearly states confirmation is pending staff response.	Must	Pass before launch
AC-08	Phone and WhatsApp links work on supported devices.	Must	Pass before launch
AC-09	Site is responsive at common phone, tablet and desktop widths.	Must	Pass before launch

AC-10	No broken links, placeholder text, console errors or missing images remain at launch.	Must	Pass before launch
AC-11	Core pages have unique title/meta description and crawlable semantic HTML.	Must	Pass before launch
AC-12	Admin routes are protected and production runs over HTTPS.	Must	Pass before launch
AC-13	Contact/address/hours shown across site match the final approved clinic details.	Must	Pass before launch
AC-14	Doctor qualifications and hospital affiliation text are verified before production publication.	Must	Pass before launch
AC-15	Developer provides deployment details, admin login handoff and basic content-update instructions.	Must	Pass before launch

22. Developer Handoff Checklist

- Production URL/domain and hosting credentials transferred/recorded securely.
- Admin/CMS URL and administrator account shared securely with client.
- SMTP/email notification setup tested.
- Database backup/export method documented.
- Map pin verified by clinic.
- Final phone numbers and WhatsApp tested.
- Favicon generated from logo.
- Social preview image configured.
- Privacy copy added and form consent enabled.
- Analytics/Search Console added if client supplies accounts/IDs.
- Basic admin guide supplied: edit service, upload gallery image, review inquiry, update appointment status, edit site settings.

23. Items Requiring Client Confirmation Before Launch

ID	Requirement	Priority	Acceptance / Notes
CONF-01	Exact official spelling of plaza/building name: “Fazal Palaza” vs any corrected spelling.	Must	Use client-approved final address.
CONF-02	Exact map pin / Google Maps location.	Must	Required for map/link.
CONF-03	Whether BSc should be displayed publicly with MBBS, FCPS.	Must	Reference artwork includes BSc.
CONF-04	Exact hospital designation/affiliation wording: DHQ Hospital / Rawalpindi Teaching Hospital and title.	Must	Do not guess.
CONF-05	Which number is primary among 051-5431070, 0331-0000643 and 0334-8676501.	Should	Current spec treats 051 as phone, 0331 as WhatsApp, 0334 as alternate.
CONF-06	Doctor portrait/clinic photos approved for public use.	Should	If unavailable, use neutral licensed imagery.
CONF-07	Email address to receive contact and appointment notifications.	Must	Needed before form go-live.

24. Optional Enhancements (Phase 2)

- Real-time appointment slot calendar with staff availability.
- SMS/WhatsApp appointment confirmations through an approved messaging provider/API.
- Patient education/blog section with doctor-reviewed articles.
- Google Business Profile review link/testimonials module (only real, consented reviews).
- Urdu version / bilingual English–Urdu website.
- Online payments if the clinic later introduces a defined, compliant payment workflow.

Appendix A — Supplied Visual Reference

The following artwork was supplied by the client and should be used as a content/brand reference. The website itself should be cleaner, responsive and component-based rather than copying the flyer layout exactly.
